

Executive Dashboard Suite

Key Features

Warehouse and Distribution Dashboard

Visualize your top 6 warehouse locations and lumberyards with the most inventories. See your top inventory by species, grade, footage, and status.

Sales Dashboard

Visualize sales and expense performance by month and year, and invoice profitability. You can also keep track of your top customers, and see your top selling products for the current month.

Sales Analysis and Forecasting Dashboard

Visualize which product is the most profitable and compare sales targets to sales forecast by month and year. You can also compare sales and expense performance for the current year to the previous year.

Order Fulfillment Dashboard

Visualize incoming orders, fiscal orders shipped, and top sold products by footage and value. You can also track monthly inventory turnover and stay on top of your top freight carriers by volume.

Logistics Dashboard

Visualize how much shipping lead time you have for current orders, and how many days, past orders were shipped late, allowing you to improve your shipping process. You can also track fiscal orders shipped.

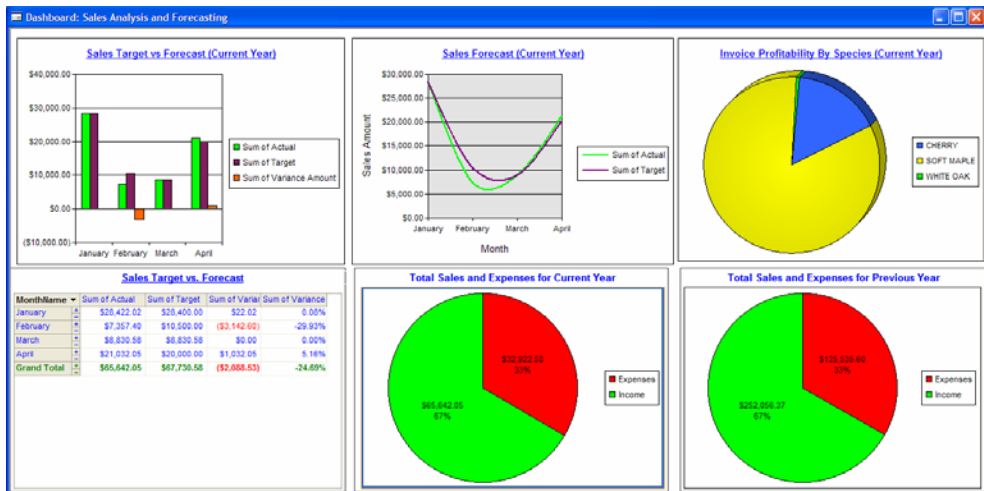

Financials Dashboard

You have instant access to inventory turnover ratio for the current year. You can also track your profit margin or return on sales by year. In addition, you have access to your gross margin over several time periods.

Executive Dashboard Overview

The new dashboard is tailored to different kinds of executives for maximum efficiency. Managers can focus of performance indicators that are critical to their work function, and are told at a glance, how the company is doing in real time.
